BENEFITS OF RAW ALOE

Herbal Answers has discovered a new way of processing Aloe Vera and Herbal Extracts that protect the life force in the plants and deliver them in the most effective and purest form ever thought possible.

Aloe Vera is a miraculous plant. Dr. Robert Davis' 30 years of research on the fresh plant explains that it is the whole plant, the whole aloe molecule with all its 250+ nutrients that accounts for all its properties. He affirms that you cannot isolate any one element nor heat it or dry it and have it still work in the body the way the fresh plant does.

The scientific research on aloe and the immune system is profound but in order to work outside the lab and in the body the aloe has to be fresh, whole and intact. This means it cannot be heated at all, not cold processed (which is still 'warmed'). The only company that has found a way to purify aloe vera without using ANY heat is Herbal Answers; AloeForce products. This raw aloe is the only one that will demonstrate the full potential of the healing properties of aloe vera including profound immune support.

The reason we have not heard much about aloe vera beyond digestion is that processed aloes are processed to 'death' and actually do not go beyond digestive soothing. We now are fortunate to have access to the entire healing aloe vera plant in a bottle to where we are now finding the miraculous healing stories of aloe vera beyond those stories that before now were only in regard to the plant itself.

This raw aloe fully demonstrated all that the scientific research has only promised.

Why Health Practitioners recommend Herbal Aloe Force for their Breast Cancer Patients:

1. To profoundly boost their immune system to restore health.
 - a. And to alleviate all side effects of both and detox the liver.
 - b. Alleviates fatigue restores energy.
 - c. Does not interfere with chemo or radiation.
 - d. Enhances immune systems own armies and increases the production of tumor necrosis factor that prevent and break down tumors.
 - e. Boosts the immune system's own mechanisms for ridding the body of abnormal cells and breaking down and removing tumors.
2. It is a powerful antioxidant.
3. Supports the digestive system, skin system and immune systems role to reduce all side effects of chemo and radiation.
4. The live aloe also contains proteolytic enzymes that are known to break down tumors.
5. The Essiac herbs in the Herbal Aloe further oxygenate the blood and tissues creating an environment where cancer cells cannot live.
6. The aloe also alkalizes the blood providing a hostile environment for abnormal cells.
7. The skin gel is deeply penetrating bringing all of the aloe's properties deep in to breast and lymph tissues.
8. The skin gel alleviates the discomfort from radiation and speeds up healing.

Practitioner reports (also see other document on Finnegan, etc):

“I have never seen a product work so effectively and so quickly. I have used the gel on my patients after surgery with unsurpassed increased healing results. I watched one of my patients put the gel on his cancerous tongue getting relief and healing in just days!! I have put several patients on the juice during their chemotherapy to boost their immune systems and for gastrointestinal support with only rave reviews. I only wish I had found this earlier in my career as an internist and oncologist.” Dr. L. Smith, MD

“I have used this Herbal Aloe Force as a *natural chemotherapy* with several cancer patients who have benefited greatly by its profound effects in boosting the immune system to support the body's own healing in circumstances that seriously challenged the product with very successful results.” Dr. John Finnegan, ND

Testimonials:

"I had been living with breast cancer for 15 years. I had been through countless rounds of chemo. I constantly searched the internet and found astounding research claims about aloe vera. I had tried at least a dozen different products all claiming to be the best. I had given up on aloe. But in my last desperate search I came across a new product, Herbal Aloe Force that sounded honest. I had nothing else to lose. I was at my wits (and hair's) end. I was shocked. I took the aloe during my chemo and for the first time had NO bad side effects. My doctors were amazed. My hair grew back. My digestion was great, I had energy I hadn't felt in 20 years. My breast cancer never returned and I am a faithful Herbal Aloe Force drinker (as are most of my friends and family). It is truly a gift from God". Connie Barna, Florida

" I was devastated when my doctor found a new lump in my breast and my lymph nodes. I did not want to go through chemo and a lumpectomy again. A friend told me about Herbal Aloe Force. I called and joined a research program for 3 months where I drank 16 oz of the juice every day and rubbed the gel into my breasts and lymph nodes. I am lump and cancer free! That was 4 years ago (editors note: now 8 yrs ago) and I would not be without either product. I have found so many other uses for the gel as well. I used to be allergic to fire ant bites and one day I stepped in a nest. I ran and got the gel, put it on me and was getting ready to go to the hospital (normally from one bite I would swell up dangerously) and even I could not believe my own eyes. I had NO reaction at all. I immediately called Dr. Jeri to tell her of my surprise. She did not sound surprised. She said that not only did the gel help directly, but that by drinking the juice for a year my whole immune system is different! I feel this product has changed my health and my life." Nancy F. Florida.

" I discovered Herbal Aloe Force from my cousin who was drinking it for her pancreatic cancer. I am an older woman and I never did anything my doctor didn't tell me to do. But when I learned I had breast cancer again, my husband insisted that I drink this juice. I drank 8oz per day and I went through chemo successfully and hardly noticed it. I didn't lose my hair or my energy like I did the last time." Doris N. NY

"I bought this juice for my mother and made her drink it during her chemotherapy and radiation treatments for her breast cancer. She had been having a rough time until she started on the juice. She had regained all her energy and actually felt better than she had before the chemo. Her doctor said: Just keep doing what you are doing. If all my patients were like you, I would have a life. Thank you, Herbal Answers, my whole family still drinks the juice faithfully every day since that scary time 4 years ago. L.M. NYC
